WHAT IS 'FASHION ILLUSTRATION'?

“Fashion Illustration is the art of communicating fashion ideas in a visual form that originates with illustration, drawing and painting and also known as Fashion sketching.”

https://en.wikipedia.org/wiki/Fashion_illustration

AND ANOTHER DEFINITION:

“Fashion Illustration is the communication of fashion that originates with illustration, drawing and painting. An illustrator draws and paints clothes for commercial use. It is usually commissioned for reproduction in fashion magazines as one part of an editorial feature or for the purpose of advertising and promoting fashion makers, fashion boutiques and department stores. A fashion illustrator is someone who creates drawings, sketches, and other works of art which pertain to the fashion industry.”

IN SHORT:

So basically, a fashion illustration is a drawing that shows any aspect of fashion, including accessories.
